Dear Noon Hiring Team,

I am writing to apply for the Performance Marketing Manager position at Noon. With 10+ years driving marketing growth across the GCC and MENA, I own the full customer journey end-to-end and consistently deliver measurable results on revenue, CAC, LTV, and ROAS.

I have run paid media at scale across Google Ads, Meta, TikTok, and Snapchat - delivering 5.2x ROAS on \$300K+ annual spend, managing monthly budgets above \$2.5M, and cutting customer acquisition cost by 28% while improving lead quality by 35%. I manage daily spend and pacing and optimise relentlessly toward ROI targets.

I bring strong analytics (GA4, Google Tag Manager, Looker Studio), deep GCC market knowledge, and native Arabic, alongside a hands-on, data-first approach to growth. I would welcome the chance to bring this impact to Noon. Thank you for your time and consideration.

Sincerely,

KHALED HUSSIEN
